Ethics Education is critical to foster ethical awareness that may prevent the way in which one acts or behaves, choosing the right thing for oneself and others. The point is that accounting education cannot exist without ethical education and accountants must be technically knowledgeable about ethical issues, many of which are related to legal liability, and professional accounting and audit issues. More than 130 cases and readings from CPA ethics in the Accounting and Business Ethics field are used to help you better understand appropriate codes of ethics and other ethical standards.

In the wake of ethical scandals and close ethical scrutiny throughout business and the accounting profession today, Brooks/Dunn's BUSINESS & PROFESSIONAL ETHICS, 9E offers a comprehensive, accessible, and affordable introduction for students and teachers of business studies and accountancy as well as the practicing accountant. The book covers the ethical implications of a wide range of ethical dilemmas. Providing real-world examples of ethical issues in the workplace, this accounting text gives you insight into the development of sound patterns of behavior on the part of directors, executives, and accountants. Since the publication of the first edition in 2002, Accounting Ethics has become an indispensible resource for accounting courses and certification programs worldwide, known for its focus on real-world, reader-friendly, and its insight into the effects of global change on the profession. Together with coverage of the contemporary regulatory environment including the Sarbanes-Oxley Act, the Public Company Accounting Oversight Board, and the Dodd-Frank Wall Street Reform and Consumer Protection Act, this revised edition features expanded pedagogical resources such as new end-of-chapter cases and discussion questions, and includes the updated AICPA Code of Conduct. Concise and dependable, Accounting Ethics sustains its reputation as an authoritative resource for practicing accountants, new professionals, students of accounting, and those who are considering the profession. Using real examples of ethical issues in today's workplace, BUSINESS & PROFESSIONAL ETHICS, 9E provides readers with the strategies needed to make the most ethical decisions possible -- no matter what the situation. By integrating the latest information on ethics, governance scandals, legal liability, and professional accounting and audit issues, this edition highlights the most recent ethical issues in today's business environment. The book examines the background and nature of the new stakeholder-support era of corporate and professional accountability and governance with valuable insights into the effective behavior patterns of directors, executives, and accountants. More than 120 current cases and key readings provide an interesting, challenging, and practical learning experience.

Intriguing real-world situations equip readers with an understanding of appropriate values, ethical pitfalls, applicable codes of conduct, and sound ethical reasons. More than 120 current cases and key readings provide an interesting, challenging, and practical learning experience.
sound ethical reasons where codes do not apply. The text can be used alone or with any traditional accounting text as each chapter stands alone. Despite the enormous impact of various accounting scandals on the accounting profession, the general malaise amongst the profession more broadly, and the significant legislative and institutional reforms that have taken place as a result, there are still surprisingly few textbooks on accounting ethics. This concise introductory text takes a broad view of ethics and accounting, taking into account contemporary social trends, such as globalization and terrorism. Rather than delineating codes of professional conduct, this text pushes the reader towards an understanding of the nature of ethical dilemmas and the factors that influence the ways in which accountants frame ethical questions. The book is divided into two parts. The first part focuses on developing thinking about the different kinds of ethical questions that could be posed in relation to accounting. The second part focuses more explicitly on accounting practice, exploring the ethical function of accounting in relation to the market economy, ethics in relation to the accounting profession, and the ethics of the international accounting harmonization project.
